

TECHNICAL DATA SHEET

99.7% Isopropanol Alcohol – 1 Litre

DESCRIPTION

Our Non-Sterile IPA has many uses and is manufactured to the highest standard. In the cleanroom setting, alcohol disinfectants refer to two chemical compounds, denatured ethyl alcohol (DE) and isopropyl alcohol (IPA) also referred to as isopropanol. IPA and DE are broad spectrum antimicrobial and are rapidly bactericidal, fungicidal and viricidal, killing most bacteria within five minutes of exposure.

TECHNICAL SPECIFICATION

| | |
|----------------------|--|
| Sterility | Non-Sterile |
| Chemical Formulation | IPA 99.7% |
| Size | 1 Litre Trigger Spray |
| Recommended Use | For sterilising hands when preparing food or for medical personnel working in surgeries, clinics, First Aid rooms, Nursing Homes, Hospitals etc. General Cleaner and steriliser. |
