

TECHNICAL DATA SHEET

Byotrol Disinfectant For Healthcare Environments

DESCRIPTION

A new, patented 4-in-1 multi-purpose surface cleaner and disinfectant, which combines the power and efficiency of 4 products into one: removing dirt and stains, neutralising odours, general cleaning and disinfection to EN standards. This product is formulated to kill 99.99% of bacteria and viruses, such as Vaccinia virus, Coronavirus (including SARS-CoV-2), Norovirus, Influenza A (H1N1, Swine Flu), MRSA, E. Coli and Listeria. Unlike traditional cleaners, this 4-in1 multipurpose surface cleaner and disinfectant works even when dry, protecting surfaces from bacteria between cleans, for up to 24 hours.
