

TECHNICAL DATA SHEET

Chemical Spill Pack

DESCRIPTION

Spill packs provide a rapid, safe way to deal with spillages of chemicals up to a litre in volume. We also supply packs to deal with larger spillages than one litre. Single-use Chemical Spill Pack ideal for rapid spill response and protection against hazardous chemicals. Designed to clean up a wide range of toxic, flammable, corrosive or aggressive liquids. The advanced absorbent pads fabric construction is unique in the fact that one side is very strong and less prone to stray fibres becoming detached whilst the other side is soft and absorbent. Fire retardant as per ASTM 726.

TECHNICAL SPECIFICATION

Recommended Use	Rapid spill response and protection against hazardous chemicals. Designed to clean up a wide range of toxic, flammable, corrosive or aggressive liquids
Certification	HSE & BSI Compliant

Pack Contents:

- 1x pair of nitrile gloves
 - 1x apron or thumb loop gown
 - 1x face mask/ eye shield
 - 3x surface wipes
 - 1x disposable bag
 - 2x absorbent pads
 - 1x set of tweezers
 - 1x clinical waste bag
- Easy to follow illustrated instructions

FEATURES

- Absorbs 1L of chemical spill
- Safe
- Efficient
- Conforms to HSE & BSI guidelines
- Ready to use
- Easy to keep
- Single use

TECHNICAL DATA SHEET

Chemical Spill Pack

Suitable for use on the following chemicals:

Acetic	Ethanol	Nitrobenzene
Acetic Acid	Ethyl Acetate	Perchloroethylene
Acetone	Formaldehyde	Phenol
Acetonitrile	Gasoline	Phosphoric Acid (86.7%)
Aluminium Salts	Glycol Ether	Propylene Glycol
Ammonium Fluoride	Hexane	Sodium Hydroxide (30%)
Ammonium Hydroxide	Hydrochloric Acid (37%)	* Sodium Hydroxide (40%)
Aqueous Ammonia (29%)	Hydrogen Peroxide (30%)	Sodium Hypochlorite
Barium Salts	Hydrogen Peroxide (50%)	Styrene
Benzyl Alcohol	Hydrofluoric Acid (48%)	Sulfuric Acid (50%)
Boric Acid	Isopentyl Acetate	Sulfuric Acid (98%)*
Butanol	Isopropanol	Tetrachloroethylene
Butyl Acetate	Jet Fuel (JP-5)	Tetrahydrofuran
Calcium Chlorite	Kerosene	Thionyl Chloride
Carbon Disulfide	Methanol	Toluene
Carbon Tetrachloride	Methyl Ethyl Ketone	1, 1, 1-Trichloroethane
Chloroform	Methyl Isobutyl Ketone	Trichloroethane
Cupric Chloride	Mineral Oil	Triethylamine Water
Cyclohexanone	Mineral Spirits	Turpentine
Dichloromethane	Naphtha	Xylene
Dimethylamine	Nitric Acid (70%)	
Dimethylformamide	Nitric Acid (fuming, 90%)	*Liquid may be slow to absorb
