

# TECHNICAL DATA SHEET

## ESD Moisture Barrier Bag

### DESCRIPTION

A triple layer barrier film with antistatic properties on the inner and outer layers, suitable for products that require excellent protection against oxygen, light, moisture, water and aroma, as well as providing ESD protection. Useful for keeping electronic components dry and storing static sensitive devices in humid environments. The material is ideally suited to flexographic printing.

**Please Note: As this is a Special Order Item, we have a minimum order quantity (MOQ) of 10 x Packs of 100.**

### TECHNICAL SPECIFICATION

Sizes	L 215mm (Int. 205mm) x W 150mm (Int. 130mm)
	L 300mm (Int. 290mm) x W 215mm (Int. 195mm)
	L 425mm (Int. 415mm) x W 300mm (Int. 280mm)
Quantity	Minimum order of 10 x packs of 100

### FEATURES

- Triple layer barrier film
- Antistatic and ESD
- Protects against oxygen, light, moisture, water and aroma
- Suitable for flexographic printing
- 100 µm thickness
