

TECHNICAL DATA SHEET

ESD Safety Shoes

DESCRIPTION

ESD Footwear is specifically crafted for the electronic components manufacturing and assembly industries. They are designed to dissipate the amount of natural static electricity on your body and conform to EN 61340-5-1 standards. Easy-clean black water-resistant Microfiber upper with comfort padded collar. Comfort fitted with a thick anti-bacterial insole. Enhanced strength, lightweight metal-free composite toe cap resistant against up to 200 joules impact. Slip on style. Dual density PU sole resistant to 200°C oil, acids and solvents. Meets and exceeds EN ISO20345 safety footwear standards.

TECHNICAL SPECIFICATION

Material	Microfibre upper with anti-bacterial insole
Sizes	UK 3-12 (EU 36-47)
Test Standards	EN 61340-5-1 EN ISO20345
Safety Properties	<ul style="list-style-type: none">• 200 joules impact• Dual density PU sole resistant to 200°C oil• Acids and solvents• Anti-Bacterial insole• machine washable at 30°C

FEATURES

- Breathable
- Non-slip
- Anti-bacterial insole
- Machine washable at 30°C
- Composite safety toe cap
- Resists up to 200 joules impact
- ESD and Anti-Static
- UK Sizes 3 to 12 (EU 36-47)
- Available in Black
