

TECHNICAL DATA SHEET

Heavy Duty Latex Gauntlet

DESCRIPTION

Heavy duty latex rubber gauntlet for use with a range of chemicals, and also tested to EN 407 – Contact Heat level 1. Crinkle latex finish on palms provide extra grip on slippery surfaces. A soft, flexible cuff, with interlock liner provides enhanced comfort. These gloves incorporate a biocidal product to protect against a broad spectrum of bacteria and fungi, promoting freshness and inhibiting odours. 30cm long.

For general handling of dilute chemicals – not recommended for use with concentrated corrosive chemicals.

TECHNICAL SPECIFICATION

Manufacture	Optimum Protection
Material	Latex rubber
Quantity	Pack of 6 pairs
Sizes	9.5/10 8.5/9.5
Test Standard	EN 388-4141 EN 374 EN 407:2004

FEATURES

- Tested to EN 388 – 4141, EN 374 and EN 407:2004
- Manufactured from Latex rubber
- AKL chemical resistance and Level 4 abrasion resistance (EN 338)
- 30cm Length
- Treated with biocide to maintain freshness
- Available in 2 sizes
