

TECHNICAL DATA SHEET

Mattress Bags

DESCRIPTION

Heavy duty clear and colour coded mattress bags for the protection of new or freshly laundered mattresses prior to use, and for the handling, storage and transportation of soiled and infected mattresses to laundry, treatment and incineration facilities. Bags are designed to fully enclose all standard mattress sizes. Once the mattress is inserted, the end can be secured using cable ties or adhesive tape. Heat sealed end seams increase durability. Suitable for incineration. Yellow bags are for incineration, and orange are for alternative treatment. Clear bags are unprinted and intended for storage and protection of mattresses.
