

TECHNICAL DATA SHEET

Micronclean Microfibre Cleanroom Wipe

DESCRIPTION

A low-linting cleanroom wipes with laser sealed edges to prevent shedding. Manufactured from a 100% continuous filament nylon/polyester blend. Medium levels of absorbency make it excellent for lens and screen cleaning, as well as for use on other hard surfaces. Suitable for use in sectors such as semiconductors, pharmaceuticals, aerospace and medical devices.

TECHNICAL SPECIFICATION

Material	100% nylon/polyester blend
Quantity	Pack of 100 or Carton of 10 x 100
Sterility	Non-sterile
Wipe Size	230mm x 230mm (9" x 9")
Compatibility	ISO class 5 Cleanroom

FEATURES

- Low Lint
- Laser Sealed Edges
- 100% Continuous Filament Nylon/Polyester
- Medium Absorbency
- Double Bagged
- Non-Sterile
- Packed in ISO 5 Cleanroom
- Dimensions: 230mm x 230mm (9" x 9")
