## Oversleeves – Splash Resistant – Knitted Cuff

### DESCRIPTION

The splash resistant oversleeves are suitable for multiple applications. They are manufactured from a lint free microporous material. Featuring elasticated cuffs and breathable fabric they are ideal for use in a cleanroom setting. The item should be conserved in a dry place away from sources of light and heat. If not contaminated the product can be treated as a normal use item. If contaminated it should be treated as harmful garbage and discarded according to the county laws. Clothing to be worn to protect against light spray, liquid aerosol or low pressure/flow volume splashes, airborne solid particles.

### TECHNICAL SPECIFICATION

Manufacture	Optimum Protection
Material	Lint free microporous
Quantity	Pack of 50 or carton of 200
Shelf Life	5 years from manufacture
Colour	White
Test standard	EN 14126 EN 1149-5 EN13034 UKCA CE
Applications	Pharmaceutical, laboratory, food processing, forensic, science and medical

### FEATURES

- Lint Free Microporous Material
- Knitted cuffs
- Breathable Fabric
- Suitable for Multiple Applications
- One size fits all
- CE certified

## Oversleeves – Splash Resistant – Knitted Cuff

### Anti-Static Properties:

The product is made following EN1149-5 despite electro-static energy standards: Person wearing the electrostatic dissipative protective clothing shall be properly earthed. The resistance between the person and the earth shall be less than  $10^8 \Omega$  e.g. by wearing adequate footwear; Electrostatic dissipative protective clothing shall not be opened or removed whilst in the presence of flammable or explosive atmospheres or while handling flammable or explosive substances;

Electrostatic dissipative protective clothing shall not be used in oxygen enriched atmospheres without prior approval of the responsible safety engineer. The electrostatic dissipative performance of the electrostatic dissipative protective clothing can be affected by wear and tear, laundering and possible contamination, electrostatic dissipative protective clothing shall permanently cover all non-complying materials during normal use (including bending and movements).

### Certification:

This product complies with the following standards:

EN 13034  
LIQUID SPLASH

**TYPE PB (6)**

EN 1149-5  
ANTI-STATIC

EN 14126  
INFECTIVE  
AGENTS

0120

0598

### Instructions for use oversleeves for splash resistance

The manufacturer does not take responsibilities for damages due to improper use of the garment or any use that does not comply with the following instructions. It is the responsibility of the user to ensure that a risk assessment is carried out to determine the suitability of the protective garment for the application and environment to be used in.

**Suitable for:** Protection against particular-tight (type 5) , Protection against chemical splash (type 6),  
ANTISTATIC PROPERTIES

**ANTI-STATIC PROPERTIES:** The product is made following EN1149-5 dissipate electro-static energy standards. - Person wearing the electrostatic dissipative protective clothing shall be properly earthed. The resistance between the person and the earth shall be less than  $10^8 \Omega$  e.g. by wearing adequate footwear; - Electrostatic dissipative protective clothing shall not be opened or removed whilst in the presence of flammable or explosive atmospheres or while handling flammable or explosive substances; - Electrostatic dissipative protective clothing shall not be used in oxygen enriched atmospheres without prior approval of the responsible safety engineer; - The electrostatic dissipative performance of the electrostatic dissipative protective clothing can be affected by wear and tear, laundering and possible contamination; electrostatic dissipative protective clothing shall permanently cover all non-complying materials during normal use (including bending and movements).

**NB:** The protection characteristics are valid only if the item is correctly dressed. Cleanroom Supplies Limited does not take any responsibility for any improper use of the garment.

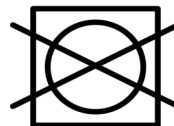

**MAINTENANCE AND CLEANING:** disposable item, single use - barred symbols

DON'T wash

DON'T iron

DON'T tumble dry

Inflammable.

Keep away from flame

**WARNINGS:** make sure that the size corresponds with the end user. Do not make any modifications to the product.

Check that the product has no defect and is in good condition (no holes, unsewn parts, etc.)

Abandon the place of work immediately in case of damage to the product

These garments are flammable - Keep away from fire

Do not re-use once worn
