

# TECHNICAL DATA SHEET

## Petri Dishes – 90mm Vented

### DESCRIPTION

High quality petri dishes. Uses include laboratory culture of microorganisms on solid media. Clear Polystyrene Petri Dishes are perfect for microbial or cell culture applications. These shallow petri dishes maximize incubator space and provide high optical quality.

### TECHNICAL SPECIFICATION

Manufacture	Optimum Protection
Material	Polystyrene
Quantity	Pack of 100 or Case of 700
Diameter	90mm x 16mm
Compatibility	Cleanroom conditions (class 7 ISO14644)

### FEATURES

- Moulded in crystal clear premium grade polystyrene
- Highly polished mould tool surfaces to produce blemish free product
- Cleanroom conditions (class 7 ISO14644)
- Minimises evaporation and dehydration making them well suited for long term work
