

TECHNICAL DATA SHEET

Plastic Sticky Mat Floor Frame

DESCRIPTION

Manufactured from tough, heavy duty White 0.9mm Polypropylene low profile floor plate to retain Tacky Mats and preserve the floor finish from the adhesive mat. Recommended particularly for carpeted floors. Also protects from adhesive residue on painted on vinyl floor finishes. Reusable Polypropylene Floor Plate. To Suit Our Tacky Mats. Anti-skid double sided adhesive stripes on bottom (optional use depending on your floor surface). User must risk assess the floor surface and provide additional floor fixings if deemed necessary.
