TECHNICAL **DATA SHEET**

STAINLESS STEEL PETRI DISH STAND
2-Tier

DESCRIPTION

A high-quality, self-assembly stainless steel floor stand for cleanroom settle plates/petri dishes.

EU GMP Annex 1 requires Cleanroom Environmental Monitoring to analyse the efficiency of your cleanroom disinfection and rotational disinfection regime. This petri dish stand is ideal for positioning plates in a non-intrusive but optimal location for cleanroom environmental monitoring. Mounted on a single rod with a solid, circular base manufactured from 6mm thick stainless steel for improved stability.

Designed to your exact specifications.
