

TECHNICAL DATA SHEET

Stainless Steel Floor Frame

DESCRIPTION

Manufactured from 304 grade 0.9mm Thick Stainless Steel low profile floor plate to retain Tacky Mats and preserve the floor finish from the adhesive mat. Low profile which means its less of a trip hazard. Stainless Steel is strong and durable. Recommended particularly for carpeted floors. Also protects from adhesive residue on painted or vinyl floor finishes. Reusable Stainless Steel Floor Plate. To Suit Our Tacky Mats. Anti-skid double sided adhesive stripes on bottom.
