

# TECHNICAL DATA SHEET

## Tacky Mats

### DESCRIPTION

Removes contamination and cleans shoe soles before entry into cleanrooms, laboratories etc. Film contains antibacterial 'PROXEL' LV produced by AVECIA biocides to reduce bacteria growth. The mat is simply stuck to the floor near an entry or exit door by removing the rear protective backing layer. Each tacky mat layer is then peeled off when dirty to reveal another new layer. Each layer is coated with a high tack adhesive which removes dust or dirt contamination. Also ideal also for the Construction Industry.

### TECHNICAL SPECIFICATION

Manufacture	Optimum Protection
Material	Polythene Sheets treated with antibacterial adhesive
Sterility	Non-sterile
Sizes	Small - 92cm x 46cm (36" x 18") Medium - 115cm x 46cm (45" x 18") - Blue Only Large - 115cm x 66cm (45" x 26")

### FEATURES

- 30 easy peel polyethylene sheets per mat - 4 mats per case
- Each Case has 4 Tacky Mats (each mat having 30 removable layers)
- Available in 3 sizes
- Removes Contamination
- High tack adhesive
- Easy Set Up
