

TECHNICAL DATA SHEET

TRESPA Stepmover Bench

DESCRIPTION

A stepover bench for use in changing rooms, with shoe storage on both sides (one dirty, one clean). Manufactured from Trespa® TopLab® PLUS, a solid grade laminate used for many applications in construction, as well as laboratory and cleanroom furniture and worktops. The standard colour is white with a black core - other colour combinations are available but may increase lead times. Benches have adjustable feet to compensate for uneven floor surfaces. Note: The above information is applicable to our standard product. Numerous options and features exist for a bespoke design service.

TECHNICAL SPECIFICATION
