

TECHNICAL DATA SHEET

Triple Bottle Holder

DESCRIPTION

Manufactured from 304 grade stainless steel. Storage for 500ml and 1L trigger bottles. Suitable for use with cleanroom rotational disinfectants. The triple design allows IPA, biocide and neutral detergent to be stored together, so that all 3 are easily accessible when required. Easy to clean and provided with 4x pre-drilled keyholes on the rear to aid in wall-mounting. A flat underside also allows for easy desk-mounting if preferred. Suitable for all standards of cleanroom.

TECHNICAL SPECIFICATION

Material	Brushed Stainless Steel (304 Grade)
Dimensions	350mm (W) x 130mm (D) x 150mm (H)
Hole Diameter	90mm

FEATURES

- Holds up to 3 x 500ml or 1L trigger spray bottles
- 3 x 90mm Diameter Holes
- 4x Pre-drilled Holes for Wall-Mounting
- Brushed Stainless Steel, 304 Grade
- Suitable for cleanroom rotational disinfection
