

# TECHNICAL DATA SHEET

## Twin Bucket Flat Mop Trolley

### DESCRIPTION

The Cleanroom Twin Bucket flat mop is ideal for those who want a mopping system that is optimised for use with Flat Mop Systems. The trolley is supplied with two easy to remove pails, this allows you to keep dirty water separate from clean water. The blue handle bucket for clean water is 15 Litre and the Red handle bucket is 22 Litres in capacity. The wringer efficiently squeezes the mop covers. Built around a durable modular system, the Mopping Trolley can easily be customised to suit your needs, or adapted to meet new demands.
