

TECHNICAL DATA SHEET

Vacuum Cleaner ULPA Filter

DESCRIPTION

ULPA (Ultra Low Particulate Air) exhaust filter for Nilfisk GM80P Cleanroom Vacuum Cleaner. This filter ensures that 99.999% of all ultrafine particles, toxic and nuisance, are retained, down to and including 0.12 microns. The ULPA filter cartridge is mounted on the top of the motor, outside the container. It requires the ULPA filter mounting kit (included as part of our Nilfisk Vacuum package). If the motor filter and the microfilter are properly maintained, the glass fibre element in the ULPA exhaust filter should perform satisfactorily for a minimum of one year.

TECHNICAL SPECIFICATION

Filtration	99.999% of all particles ≥ 0.12 micron
Life Span	1 year minimum
Compatibility	Nilfisk GM80P Vacuum Cleaner

FEATURES

- ULPA (Ultra Low Particulate Air) exhaust filter for Nilfisk GM80P Cleanroom Vacuum Cleaner
- Certified ULPA filter
