

TECHNICAL DATA SHEET

Wall-Mounted Hand Sanitiser Dispenser

DESCRIPTION

A wall-mounted, pump action dispenser for use with any hand sanitising gel. Manufactured from robust ABS plastic, it contains a 900ml reusable reservoir, allowing you to easily refill the dispenser with sanitiser once it's empty. A large window on the front panel enables you to quickly see the level inside. Suitable for use with most hand sanitisers on the market. This version comes with a liquid pump for hand sanitising gels, but pumps are also available for foams and sprays.

TECHNICAL SPECIFICATION
