Product Description

AZOMAX is our leading brand of 2-in-1 alcohol-free cleaning and disinfectant wipes and sprays. They contain our revolutionary patent pending proprietary – Advanced Active Technology™ formulation containing a mix of surfactants and 5 biocides including quaternary ammonium compounds (QACs), bronopol and polymeric biguanide (PHMB), complementing one another to create a powerful 2-in-1 cleaning and disinfectant which has a 24 hour residual activity – providing continuous antimicrobial activity.

AZOMAX is NHS approved and is widely used in professional settings including healthcare areas such as casualty departments, operating theatres, GP, dental surgeries, laboratories, clean rooms and care homes. Furthermore, AZOMAX™ is also used widely in non health areas including food manufacturing, hospitality and catering, schools and educational community where infection prevention and control is fundamental.
