

Suitable for:

**ISO Class 3-7
Cleanroom Class 1-10,000
EU Grade B/C/D**

Cleanroom paper suitable for Class A, B & C/ISO Class 3-7 cleanrooms.

This paper has a specialised coating to reduce particles, fibres and micro-organisms. The surface of the paper is smooth to further reduce particle contamination. The paper also retains ink from copiers and laser printers to reduce smudging. Each pack of paper is double bagged for cleanliness.

We provide two options for the cleanroom paper:

- BCR[®] Cleanroom Paper - Standard Cleanroom Paper
- EcoBond[®] Cleanroom Paper - Latex free, **recyclable** Cleanroom Paper

Both types of Cleanroom Paper are available in A3 & A4 sizes

BCR[®] Cleanroom Paper

BCR[®] Cleanroom Paper is made with the purest quality cellulose, and is specially coated to minimize particle and fibre release, making it suitable for use in ISO class 3-7 and Class A, B & C cleanrooms. It is used like normal paper for writing, copying and printing, and is compatible with all standard photocopiers and laser printers without jamming.

Features:

- Specialised coating to reduce the release of particles, fibres and micro-organisms
- Smooth surface reduces surface particle contamination
- Retains ink from copiers and laser printers to reduce smudging
- Double packed for cleanliness
- Can be gamma irradiated for use in sterile applications

EcoBond[®] Cleanroom Paper

EcoBond[®] Cleanroom Paper is made from the same pure cellulose as the standard BCR[®] Cleanroom Paper, but is latex free and fully recyclable. It is designed for the highest level of contamination control in critical processing applications, and is therefore recommended for use in ISO Class 3-7 cleanrooms. Like the standard cleanroom paper, it is compatible with photocopiers and laser printers without jamming, however, it is not recommended that you use it with inkjet printers.

Features:

- 100% Recyclable
- Complies with RoHS 2002/05 and REACH requirements
- Latex and Talc free
- High strength and heat resistance
- Precision cut edges
- Steam autoclavable for aseptic applications
- Suitable for use in Cleanroom manuals and work instructions
