

Environmental Policy

Cleanroom Supplies Limited recognises the importance of environmental protection, and is committed to operating its business responsibly and in compliance with all relevant environmental legislation.

It is the Organisation's objective to implement all reasonably practical measures and to continually improve environmental performance, with the following policies:

- Train employees in environmental awareness, particularly focusing on issues relating to their job.
- Minimise the production of waste through re-use and recycling
- Promote efficient use of materials and resources throughout the facility
- Encourage the use of recyclable and renewable products and materials
- Reduce and/or limit the production of pollutants to water, land and air
- Minimise the risk to the general public and employees from operation and activities undertaken by the organisation
- Purchase sustainable products wherever practical

Our environmental policy is communicated to all employees, suppliers and sub-contractors, and is also made available to the public on request.

We will strive to regularly assess and re-assess the environmental effects of the organisation's activities.

Michael Hill
Managing Director
